

Veratad Technologies, LLC
Sample Entry Process Flow: AgeMatch

Initial Entry Screen	
First Name	
Last Name	
Street Address (or PO Box)	
City	
State	
Zip Code	
DOB	

Retry Entry Screen	
Same as Initial Entry Screen	
Incorporate Text for:	
• Previous Address	
• Previous/Maiden Name	
Loop - Initial Entry	

Response Code Key	
" 1 "	= Positive
" 2 "	= Negative
" 3 "	= Unavailable
" 4 "	= Differences
" 5 "	= Ambiguous

Hint: Response Code "5"
 Multiple identities are returned. You can choose to proceed if underlying Age Response Codes associated with each identity returned = "1". If your tolerance allows for Age Response Code "4" you can choose to proceed if underlying Age Response Codes contain any combination of "1" and "4". Do not proceed for any combination containing a Response Code of either "2" or "3".
